Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1 and 3-46 are in the subject application, as filed in that claims 1, 3-14, 24-31 and 39-42 have been examined and claims 15-23, 32-38 and 43-46 have been withdrawn from prosecution.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 3-14, 24-31 and 39-42 are rejected under 35 U.S.C. 102(e) as being anticipated by Blomquist et al'637.

The reference discloses an energy curable composition comprising a compound having the claimed formulae in the Examples in that n is 2, 3 or 4.

Note that the fluorinated polymerizable compound includes at least one fluorinated alkylene or alkylene ether moiety---(see Abstract) and wherein the composition has an absorption loss of less than 0.5 dB/cm at a wavelength of 1550 nm (see col. 3, line 35 et seq; col. 8, lines 26-28, lines 62-63).

Note also that the reference does disclose a polymeric material and optical elements comprising a polymer or copolymer of an energy curable composition having an aromatic moiety, at least two fluorinated alkylene, arylene or polyether moieties and at least one ethylenically unsaturated moiety, each ethylenically unsaturated moiety

being linked to one of the fluorinated alkylene, arylene or polyether moieties (see Abstract and structures in the Examples)

Thus, each and every limitation of the claims is met by the reference.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duc Truong whose telephone number is 571-272-1081. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
